Subject : Bingaman Commission

Kathryn Mack left me a message last night that she was forwarding the info I gave her (resumes on the people they did not know) to Bob Kyle. I also gave rationale on the industries and why will we get a balanced report. As you know, their concern was that the makeup of the committee will result in a report that is too critical of the Admin's efforts in this region. I explained to her how our changes affect the committee's balance and that we need to go ahead with this list. Her comments were that it may have to be resolved at the Kantor/Berger level which I think is ridiculous. I will call Bob Kyle to see if I can be the voice of reason. I can not believe that this one commission is taking so long. I call Bingaman's office every day to keep them from blowing up. I will let you know what Bob says.
